Electronic Laboratory Reporting Details (cont.)

The on-boarding process to exchange ELR data with the Tennessee Department of Health (TDH) requires registration by each potential trading partner in the TDH <u>Trading Partner</u> Registration (TPR) system.

The TPR provides documentation that can be utilized for Meaningful Use (MU) attestation, and allows users to view their progress from end to end through the use of milestone letters documenting the on-boarding process. If you have not yet registered with TDH in the TPR system and you wish to send ELR to TDH, please contact MU.Health@tn.gov for assistance.

For more information on ELR on-boarding, including the on-boarding process, on-boarding checklist, frequently asked questions, business rules, and message format and vocabulary, please see the <u>ELR On-Boarding Packet</u>.
